H1N1 Update

PLYMOUTH, Ind. – The Marshall County Health Department is hosting an H1N1 vaccination clinic at Argos High School. The clinic will target ages 6 months to 18 years old. A mix of flu mist and shots are available.

The H1N1 clinic is scheduled for Wednesday, December 2 from 3:30 to 5 p.m. at the Argos High School. To accommodate school bus traffic, people are asked to wait until 3:30 p.m. before arriving. Parents need to be present for elementary students and younger.

A closed clinic for Argos students only will start at 2:00 P.M.; Junior and Senior High students with forms signed by their parents will be directed by the school to the H1N1 clinic.

The age group of 6 months to 18 years old is the largest target group and school clinics can reach them most efficiently. Limiting the spread of H1N1 in this group will limit H1N1 in the community as a whole and help protect everyone.
